

**MVARA Monthly Meeting October 8, 2020
at 7:00 pm**

Virtual tour of the Asheville Radio Museum

October Meeting Location GOP Headquarters, 8381 Market St,
Boardman, OH 44512.

Our October MVARA meeting program will be a virtual tour of the Asheville Radio Museum. Opened to the public in 2001 by a small group of amateur radio operators, we have evolved from being a collection into a teaching museum, where people of all ages can learn about the history of radio technology and wonder at the equipment and how it evolved. Our mission is:

To foster an understanding of the technology and history of amateur and commercial radio development and an appreciation of the impact this has had.

By collecting and preserving radio equipment, advertising and other memorabilia, in an education-oriented museum, with hands-on displays and a working ham station

And, through outreach, offering education programs and tours for interested students.

In doing so, stimulate student interest in science, technology and engineering (STEM).
